	validated.			
Radio Training Available through partnership with Seaskills	All club members who use club radio equipment will be qualified	Maintain partnership with Seaskills to provide training	Ongoing course running in March	
Team fully aware of all RYA Scotland initiatives	ELYC training team represented at RYA Scotland development events for example the instructor conference at Cumbrae	Publicise events to team and enable as many people as possible to attend	Instructor update conferences ongoing	
Training team to get together to discuss and better understand how to minimise risks by applying risk assessments.	Working as safely as possible by building in best practice to all aspects of our operation.	Regular get togethers and discussions to keep the topic in the forefront of our minds	ongoing	
JR representing sailing clubs on RYAS participation development group	Need to find a successor Ensure report submitted to sailing committee on RYA committee activity.	Promote opportunity to the training team	ongoing	

Teaching beginners

Where are we now?	Where do we want to be?	How are we going to get there?	How long will it take?
For cadets 11 – 17 year olds Four stage one/two 5 day courses planned for July 2006 One stage three 5 day course August	Able to offer training to more people. Running concurrent activities for different levels of abilities To meet the demand of local community and surrounding areas Hugh running learn to sail in May and June and following up with sailing with spinnakers in September	Developing training team expertise	Summer school dates and staff organised and in place Improver sessions identified for last year training graduates regular fun events
For adults one learn to sail courses over a five week period including 2 theory evenings Big demand for sail training all courses have waiting lists			
Schools	Building on last year's success and offering a high school sailing club	North Berwick High School sailing group to be set up for April 2006	April 2007

	run and supported by qualifies pupils and keen teachers	The group will sail at ELYC on Friday afternoons run by qualified and experienced pupils along with members of school staff and qualified club members	
Active Steps sessions Alternative curriculum	Offering RYA taster session and stage 1	Build on last year's success	Programme to be decided
Level 2 and safety boat courses offered to all members over 16 who will do Cox duties during club activities Advanced power boat training available through our partnership with Seaskills	To offer minimum of two courses for level 2 and safety boat And familiarisation for cadets	Plan courses and resources to support training Powerboat 2 course happening in March/April	Familiarisation will run during training courses trained drivers will be co-opted to support fun events

Ongoing training - Cadets

Where are we now?	Where do we want to be?	How are we going to get there?	How long will it take?
Fun Fridays running through May, June, July, August and early September to encourage cadets and adults who can sail to build confidence and competence. Youth club on the water with opportunity to use club facilities afterwards. Pool, music etc. Adults also interested in developing skills helps with retention of new members and those who need to build confidence before joining club racing	Fun sessions for adults, families and cadets new for 2007 book a helm last Friday of every month experienced helms have agreed to make themselves available to coach beginners in two handed boats	Enhanced fleet means lots of capacity will need to increase rescue cover	ongoing
Fun Sundays offered in beginning and end of season to maintain momentum and consolidate	As above	As above	Starting season with some Fun Sundays in March to encourage people back on the water

competence				
Club Members	Training sessions to be offered to club sailors to develop and enhance sailing competence	Planned into programme for 2005 Class associations (Solo and RS) events have run successfully	Will review and build on success for 2006 programme	

Race Training

Where are we now?	Where do we want to be?	How are we going to get there?	How long will it take?
Fun racing open to all with little or no racing experience supported by coach boat running weekly during term time May - Sept lain to plan and run sessions	Offer more less structured approach to race training to be run by Assistant Instructors will adult support driving ribs.	Toppers and lasers	ongoing
On the water race training sessions	To maintain momentum and expertise offer sessions over the winter	Develop coaching skills of training team through club racing coach syllabus	ongoing
Talent development	Those with potential to compete at higher level selected and offered race training with club racing coach.	Selection process from sail trainees to go forward for dedicated course of race training. Need suitable boats for cadets to broaden experience with Laser 2k – asymmetric Laser standard, radial, 4.7 aligned to RYA squad	ongoing
Team racing not happened before	Members with experience of Team racing will coach those interested in laser 2000s in June	Develop expertise within team	ongoing
Events and travellers Where are we now? NBHS team	Where do we want to be? Enter Schools regatta – Brown Cup	How are we going to get there? NBHS sailing group will enable a team to be selected and entered for this annual event at Loch Earn	How long will it take? Event in June School sailing day 8 th June to encourage schools we have not

				yet worked with Regatta day 22 nd June fun racing day – round the island race and picnic.
Some trainees travel to events supported by parents	All talented sailors encouraged to compete at travellers Information and advice provided by training team to sailors and parents	Additional members recruited to training team to specifically support ELYC trainees at events - interested parents	2006	

Yachts

Where are we now?	Where do we want to be?	How are we going to get there?	How long will it take?
Coastal skipper/ yachtmaster Dayskipper theory course	Members able to source yacht training through ELYC	Ian Wilson of Seaskills will supply	Ongoing through February, March and April
Numbers of racing yachts very small	Healthy numbers yacht racing Currently 4 would like to increase to 12	Alastair and Derek developing yacht development plan and looking at harbour provision	ongoing

Sailability

Where are we now?	Where do we want to be?	How are we going to get there?	How long will it take?
Foundation level approval We can offer on the water experience to ambulant, visually and hearing impaired people. We assess each individual's aspirations when we are approached.	Increase in fleet will enable us to cater for a broader range of abilities. Dart and Laser 2000s will greatly extend the experience we can offer to less able sailors.	Need to develop expertise within training team.	Ongoing
